

## Minimize close contact with sick persons.

## Avoid touching your mouth, nose and eyes.

### Wash your hands.

Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing.

3. Lather and scrub for at least 20 seconds.

5. Dry hands.

#### Use hand sanitizer with at least 60% alcohol.

Use alcohol-based sanitizer when soap and water are not readily available. Do not use sanitizer if your hands are visibly dirty or greasy.

# Cough and sneeze into a tissue or your elbow.
